WHAT WE DO BEST

WE MAKE IT PERSONAL

When you work with us, you can count on personalized, one-on-one service through every step of the sales and implementation process. With sales representatives nationwide, we earn your business by being responsive, listening to your specific application requirements and delivering a quality product on time and on budget. Our commitment to you doesn't stop there - our exceptional customer service team is ready if you need our help through the life cycle of your product.

PUTTING CUSTOMERS FIRST

We aim to build long-standing relationships with our customers. In everything we do, we make client satisfaction a priority. That is why we align ourselves with only the top manufacturers in the industry. It is why we continually develop our team of service-oriented experts and engineers. It is why we are continuously looking for new product solutions to meet the ever-changing demands of the industry. Ultimately, Accu Tech USA understands the importance of our products to your business and we strive to deliver the highest quality technology at the most affordable price.

CUSTOMIZATION

Every application has its own unique requirements and sometimes a commercial off the shelf product will not fit your need. Our in-house machine shop staff are qualified machinist with the knowledge to develop solutions to fill the gaps when needed. Perhaps you need a custom length for your rail or a custom fabricated part - we can customize the parts you need to get the job done.

OUR BUSINESS. OUR PEOPLE.

We understand that investing in our employees is one of the smartest business decisions we can make. Technology is constantly evolving and we recognize to provide the best for our customers we must continually invest in ongoing education for our employees. Continuing education impacts every aspect of our business - from production to engineering - and our customers benefit from our knowledge of the latest industry trends.

INNOVATION FOR YOU

We have a team of engineers that are constantly working to reach even higher standards for the customer experience. We start by listening and understanding each application objective and then recommending products and services tailored to meet those needs. If you need help sizing or determining specifications, we have the right people with the right skill set to support you to ensure project success.

INCREASE YOUR ROI

We know there are a lot of options when selecting automation and motion technology. We only represent the highest quality brands of actuators, linear guides, ball screws, and CoBots - products that we believe in. That means, you can trust us to deliver time-tested products that work as expected, run consistently every time you need them and will help your business run more efficiently, ultimately increasing your return on investment.

DRIVING INNOVATION FORWARD

With the robust market demand, Accu Tech USA has uniquely managed its inventory supply chain to be able to deliver high quality products at a fraction of the competitors lead times. We understand that having to wait months to receive standard products is not conducive to today's fast-paced business environment. Engineers need to be able to source the required components to continue driving innovation forward.

PRICED TO FIT YOUR BUDGET

In our competitive marketplace, we've built our business on providing top of the line products and continuing to focus on lean operation practices so we can provide affordable solutions to our customers. Knowing that we are continuously looking to streamline our production, engineering and machine shop capabilities, ensures that you will receive the overall best value for your investment.

We go out of our way to understand how you work and the challenges you face; we will meet you where you are and deliver products for your specific application and needs. The right technology, competitive pricing, knowledgeable staff, dedicated service - it's all part of the Accu Tech USA way of doing things. Regardless of where you are in the purchasing cycle, we're ready to help. Contact us today to learn more.
